Community Health Services

GETTING TO ZERO

ZERO NEW INFECTIONS
ZERO DISCRIMINATION
ZERO DEATHS

Since the epidemic began in the early 1980s, an estimated 36 million people have died from AIDS related illnesses. More than 30 years later, our world is still fighting to halt and reverse the spread of HIV. Through prevention, treatment, care and education, **Legacy Community Health Services** strives to achieve the goal of zero new infections, zero discrimination and zero deaths.
